INTRODUCTORY NOTE

ESCAP Publications and Documents, 1981, prepared by the ESCAP Library, is a compilation of ESCAP-generated data stored in the ESCAP Bibliographic Information System (EBIS), intended to answer a need expressed by member countries for wider dissemination of information produced by the secretariat's divisions and special units.

This bibliography is the second in the series. It includes documents, research studies, directories, manuals and handbooks, bibliographies, periodicals and other material issued during 1980-1981. The compilation consists of 169 entries divided into three parts: bibliographical entries, a descriptor index and a title index.

The section containing bibliographical entries is alphabetically arranged by broad subject categories. It gives complete bibliographical data in accordance with the International Standard Bibliographical Description (ISBD) for monographs and serials and identifies the keywords used in the descriptor index.
